Adapter Swan Neck With Rubber Hose With screw thread for thermometer

Code: AL-266 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Adapter Swan Neck With Rubber Hose With screw thread for thermometer

The AVAIN LABS® Adapter Swan Neck with Rubber Hose and Screw Thread for Thermometer is a premium laboratory glassware accessory designed for efficient distillation, condensation, and temperature-monitoring applications. Crafted from high-quality borosilicate glass, this adapter offers excellent thermal resistance, chemical durability, and long-lasting performance in demanding laboratory environments.

Featuring a swan neck design, an integrated rubber hose connection, and a screw-threaded thermometer port, this adapter enables precise temperature measurement while providing a secure pathway for vapor transfer and fluid circulation. The ergonomic design ensures reliable operation, leak-proof connections, and enhanced experimental accuracy in research, educational, and industrial laboratories.

Key Features

- High-quality borosilicate glass construction for superior durability
- Swan neck design for smooth vapor and liquid flow
- Integrated rubber hose connection for secure tubing attachment
- Screw-threaded port for accurate thermometer installation
- Excellent resistance to heat, chemicals, and thermal shock
- Precision-engineered joints for leak-free laboratory setups
- Easy to clean, maintain, and reuse

Applications

- Distillation and fractional distillation setups
- Condensation and vapor transfer systems
- Chemical and analytical laboratories
- Research and development facilities
- Educational and academic laboratories
- Temperature-controlled experiments
- Industrial testing and quality control processes

The AVAIN LABS® Swan Neck Adapter with Rubber Hose and Screw Thread for Thermometer is an essential laboratory component that combines efficient fluid handling with accurate temperature monitoring, making it ideal for scientific, educational, and industrial applications.
