Adult Male-Child -Female Top (3-in-1) Manikin AL-5007

Code: AL-5007 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Adult Male-Child -Female Top (3-in-1) Manikin AL-5007

The AVAIN LABS® Adult Male-Child-Female Top (3-in-1) Manikin AL-5007 is a versatile CPR and resuscitation training manikin designed for practical training in adult, child, and female-top configurations. It provides realistic airway management, chest compression feedback, rescue breathing practice, and AED training in a single training simulator.

With full-head CPR capability, jaw thrust maneuver, life-like breathing function, realistic airway opening, and clicking compression-depth feedback, the AL-5007 helps instructors demonstrate essential emergency care techniques in a practical and repeatable training environment.

Special Features

- 3-in-1 Training Simulator – Adult, Child & Female Top Supports CPR training across adult and child configurations with a female skin top for expanded training applications.
- Full Head CPR Enables realistic practice of CPR techniques involving the complete head and airway.
- Jaw Thrust Maneuver Allows trainees to practice the jaw thrust technique for airway management during emergency resuscitation.
- Life-Like Breathing Function Provides a realistic breathing function to support rescue-breathing and resuscitation training.
- Unique One-Way Valve Helps provide hygienic training by incorporating a one-way valve system.
- Clicking Compression Feedback Produces a clicking sound when the correct chest-compression depth is achieved, helping trainees develop proper compression technique.
- Three-Position Selector Dial A three-position selector dial allows selection between available training configurations.
- AED Compatible Suitable for practicing AED-related procedures as part of CPR and resuscitation training. Note: AED device is not included.
- Ultra-Hygienic Design Designed with hygiene in mind for repeated training sessions in educational and professional environments.
- Realistic Airway Opening Provides realistic airway opening practice for effective airway-management training.
- Female Skin Top Without Bag Includes a female skin top configuration without a bag, as specified.

Applications

The AL-5007 3-in-1 CPR Manikin is suitable for training and demonstration of:

- Adult CPR training
- Child CPR training
- Female-top CPR practice
- Chest compression techniques
- Rescue breathing
- Airway management
- Jaw thrust maneuver
- Airway opening techniques
- AED procedure training
- Emergency resuscitation training
- First-aid and lifesaving skills

Ideal For

- Medical colleges
- Nursing colleges
- Medical training institutes
- Paramedical institutions
- Hospitals and healthcare training centers
- CPR training centers
- First-aid training institutes
- Nursing skills laboratories
