Over Head Projector

Code: W-1588 GST: 18% Brand: AVAIN LABS

- Powerful projection lamp for clear visibility
- Advanced co-axial cooling fan with computerized motor
- Large stage aperture suitable for A4 transparencies
- Sturdy and reliable construction for long-term use
- Ideal for schools, colleges, training institutes & offices
- Trusted quality product from AVAIN LABS®

Technical Specifications:

- Projection Lens: One Element 254 mm and Single Lamp
- Projection Lamp: 24V–250 Watt / 24V–150 Watt
- Stage Aperture: 250 × 250 mm / A4 Size (285 × 285 mm)
- Cooling System: Co-axial Fan with Computerised Motor
- Focus Mechanism: Fine focusing mechanism operated with single knob
- Operation: Rack & Pinion Fine Focusing System
- Electric Supply: 240V, 50Hz, 5 Amps, 3-Pin Plug
- Glass Fuse: 5 Amps
- Paint Finish: Special Powder Coating (Scratch Free)
- Weight: Approx. 10 Kg

Applications:

- Classroom teaching
- Educational institutions
- Seminar presentations
- Training programs
- Office and conference presentations
- Laboratory demonstrations

Product Specifications:

- Brand: AVAIN LABS®
- Product Name: Over Head Projector
- Usage: Educational & Professional Projection
- Country of Origin: India

AVAIN LABS® Over Head Projector

The AVAIN LABS® Over Head Projector is a durable and high-performance projection system designed for classrooms, training centers, educational institutions, laboratories, seminars, and professional presentations. Engineered with precision optics and advanced cooling technology, this overhead projector delivers bright, clear, and sharp image projection for effective teaching and presentation experiences.

Built with a sturdy metal body and finished with special scratch-resistant powder coating, the projector ensures long-lasting durability and reliable operation. The fine focusing mechanism with rack and pinion control allows smooth and accurate image adjustments, making it ideal for continuous professional and educational use.

The AVAIN LABS® Over Head Projector is equipped with a powerful projection lamp, high-quality projection lens, efficient cooling system, and large stage aperture suitable for A4 transparencies, ensuring excellent visibility and performance in classrooms and conference environments.

Key Features:

- High-quality overhead projector for educational & professional use
- Bright and sharp image projection
- Durable scratch-free powder-coated body
- Smooth fine focusing mechanism with single control knob
- Efficient rack & pinion focusing operation
