PORTABLE TDS METER AL-39C

Code: AL-39C GST: 18% Brand: AVAIN LABS

AVAIN LABS® PORTABLE TDS METER AL-39C

The AVAIN LABS® Portable TDS Meter AL-39C is a compact, convenient instrument designed for measuring Total Dissolved Solids (TDS) in liquid and water samples. With its portable design and easy-to-read digital display, it is suitable for water testing, educational laboratories, environmental studies, science practicals, and field applications.

The AL-39C features a 3½-digit LCD display for clear readings, a battery-operated design for convenient use, and a durable ABS plastic body. Its portable construction makes it easy to carry and suitable for routine TDS measurement in different locations.

Key Features

- 3½-digit LCD display for clear and easy readings
- Battery operated for convenient portable use
- Compact and portable design
- Durable ABS plastic body
- Designed for TDS measurement in liquid samples
- Suitable for laboratory, educational, and field applications
- Easy to handle and transport
- Practical instrument for water-quality studies and demonstrations

Applications

The AVAIN LABS® Portable TDS Meter AL-39C can be used for:

- Water quality testing
- Total Dissolved Solids measurement
- School and college laboratory practicals
- Chemistry and environmental science experiments
- Educational demonstrations
- Water-testing applications
- Environmental studies
- Field and on-site measurements
- Routine laboratory testing

Product Specifications

Educational & Laboratory Benefits

The AVAIN LABS® AL-39C TDS Meter provides students and laboratory users with a practical way to study Total Dissolved Solids in water and other liquid samples. Its digital LCD display makes readings easy to observe during practical sessions, demonstrations, and water-quality studies.

Its lightweight, battery-operated, portable design also makes it convenient for classroom activities, laboratory work, and field testing.

Why Choose AVAIN LABS® Portable TDS Meter?

The AVAIN LABS® Portable TDS Meter AL-39C combines a clear 3½-digit LCD display, battery operation, compact portability, and ABS plastic construction in a practical TDS measurement instrument. It is well suited for educational institutions, laboratories, environmental studies, and routine water-testing applications.
