AUGER POWDER FILLING MACHINE AL-897

Code: AL-897 GST: 18% Brand: AVAIN LABS

AVAIN LABS® AUGER POWDER FILLING MACHINE AL-897

The AVAIN LABS® Auger Powder Filling Machine AL-897 is a high-precision automatic powder filling solution designed for accurate, efficient, and hygienic filling of powdered products across pharmaceutical, food, chemical, nutraceutical, and cosmetic industries. Built with advanced auger filling technology, this machine ensures consistent filling accuracy with minimal product wastage and maximum production efficiency.

Manufactured using premium-grade stainless steel, the AL-897 Auger Powder Filling Machine is ideal for handling free-flowing and non-free-flowing powders such as spices, protein powder, milk powder, flour, chemicals, herbal powders, detergent powder, and pharmaceutical formulations. Its robust industrial design and automated operation make it suitable for continuous production environments.

The machine features a user-friendly control system, high-speed filling mechanism, and reliable auger technology for smooth and precise powder dispensing. Designed for industrial performance and easy maintenance, the AVAIN LABS® AL-897 delivers dependable operation with excellent filling consistency and hygienic processing standards.

Its compact yet durable construction ensures space-saving installation while maintaining superior operational stability and productivity.

Key Features

- Advanced auger-based powder filling technology
- High-accuracy powder dispensing system
- Durable stainless steel construction
- Fully automatic and efficient operation
- Suitable for various powder products
- User-friendly control panel
- Hygienic and low-maintenance design
- Stable and continuous industrial performance

Applications

- Pharmaceutical powder filling
- Food and spice packaging industries
- Nutraceutical and protein powder filling
- Chemical and detergent powder packaging
- Cosmetic and herbal powder applications

Benefits

- Ensures accurate and consistent filling
- Reduces product wastage and manual labor
- Enhances production efficiency
- Supports hygienic packaging operations
- Easy cleaning and maintenance
- Suitable for small to large-scale manufacturing

Why Choose AVAIN LABS®?

AVAIN LABS® is a trusted manufacturer of industrial packaging and filling machinery known for innovation, quality, and reliable performance. The AL-897 Auger Powder Filling Machine is engineered to meet modern industrial requirements with precision filling technology, durable construction, and high operational efficiency for powder packaging applications.
