Capsule Counter (Aluminium)

Code: W-965 GST: 18% Brand: AVAIN LABS

- Portable & Compact – Convenient for lab and production use
- Long-Lasting Performance – Built for continuous professional use

Available models

AVAIN LABS® Capsule Counter (Aluminium)

The AVAIN LABS® Capsule Counter (Aluminium) is a precision-engineered laboratory and pharmaceutical tool designed for accurate, fast, and efficient capsule counting. Built with high-quality lightweight aluminium, this device ensures durability, corrosion resistance, and long-lasting performance, making it ideal for pharmaceutical labs, research centers, and production units.

Designed for ease of use, the capsule counter allows users to quickly count capsules with minimal handling and maximum accuracy, reducing human error and saving valuable time. Its smooth surface finish and ergonomic design ensure effortless operation and easy cleaning, maintaining hygiene standards required in professional environments.

Whether used for quality control, packaging, or laboratory analysis, the AVAIN LABS capsule counter delivers consistent and reliable results, making it an essential tool for any pharmaceutical setup.

? Key Features

- High-Quality Aluminium Construction – Lightweight, durable, and corrosion-resistant
- Accurate Counting – Ensures precise capsule counting with minimal error
- User-Friendly Design – Simple operation for quick and efficient workflow
- Easy to Clean & Maintain – Smooth finish supports hygiene compliance
