Beaker with spout Low form with Handle

Code: AL-332 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Beaker with spout Low form with Handle

The AVAIN LABS® Beaker with Spout – Low Form with Handle is a practical laboratory vessel designed for mixing, stirring, measuring, transferring, heating, and handling liquids in a wide range of laboratory applications. Its low-form design provides convenient access to contents, while the integrated spout allows controlled and easy pouring.

The ergonomic handle provides a comfortable and secure grip, making the beaker convenient to handle during routine laboratory procedures. Designed for professional laboratory environments, it is suitable for use in research laboratories, educational institutions, pharmaceutical laboratories, biotechnology facilities, chemical laboratories, healthcare environments, and industrial applications.

Key Features

- Low-form beaker design for convenient laboratory use
- Spout for controlled and precise pouring
- Integrated handle for comfortable and secure handling
- Suitable for mixing, stirring, transferring, and handling liquids
- Practical design for routine laboratory applications
- Easy-to-use solution for laboratory liquid handling
- Suitable for professional, educational, research, and industrial laboratories

Applications

The AVAIN LABS® Beaker with Spout – Low Form with Handle is suitable for a variety of laboratory procedures, including:

- Liquid mixing and stirring
- Sample preparation
- Liquid transfer and dispensing
- Laboratory experiments
- Heating and handling of liquids, where the material specification permits
- General laboratory and research applications

Why Choose AVAIN LABS®?

AVAIN LABS® provides laboratory products designed to support efficient and reliable laboratory workflows. Our laboratory range focuses on functional design, consistent quality, ease of handling, and practical performance for professional laboratory environments.

Choose the AVAIN LABS® Beaker with Spout – Low Form with Handle for convenient liquid handling and dependable performance across a wide range of laboratory applications.

Contact AVAIN LABS® for product specifications, sizes, packaging details, availability, and bulk requirements.
