Bottle Or Cap Sealing Machine

Code: W-2448 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Bottle Or Cap Sealing Machine

The AVAIN LABS® Bottle or Cap Sealing Machine is a high-performance ROPP (Roll-On Pilfer Proof) aluminum cap sealing machine designed for efficient, reliable, and leak-proof bottle sealing. Powered by a robust 1/2 HP electric motor, this machine ensures smooth, consistent, and high-speed operation, making it ideal for pharmaceutical, laboratory, chemical, food & beverage, cosmetic, and industrial packaging applications.

Built with a heavy-duty steel frame for durability and stability, the machine is engineered to provide precise sealing of aluminum ROPP caps on glass and plastic bottles. Its user-friendly operation minimizes operator fatigue while delivering uniform cap sealing with excellent accuracy. The compact design requires minimal workspace, making it suitable for both small-scale production units and commercial manufacturing facilities.

Whether you're sealing pharmaceutical syrups, laboratory reagents, essential oils, beverages, or cosmetic products, the AVAIN LABS® Bottle Sealing Machine delivers professional-grade performance with long-lasting reliability.

Key Features

- Powerful 1/2 HP Motor for smooth and efficient sealing
- Designed for ROPP (Roll-On Pilfer Proof) Aluminum Caps
- Heavy-duty steel construction for long service life
- Fast, precise, and leak-proof bottle sealing
- Suitable for glass and plastic bottles
- Easy to operate with low maintenance requirements
- Compact design ideal for laboratories and production units
- Stable operation with excellent sealing consistency
- Durable mechanical construction for continuous use
- Manufactured by AVAIN LABS®

Applications

- Pharmaceutical Industry
- Chemical Laboratories
- Research Laboratories
- Food & Beverage Packaging
- Cosmetics Manufacturing
- Herbal & Ayurvedic Products
- Essential Oil Bottling
- Industrial Packaging Units

Technical Specifications

Why Choose AVAIN LABS®?

AVAIN LABS® manufactures premium laboratory, pharmaceutical, and industrial equipment known for superior quality, precision engineering, and dependable performance. Our Bottle Sealing Machine is built to deliver efficient, secure, and consistent sealing, helping businesses improve productivity while ensuring product integrity.

Specifications

Brand	AVAIN LABS®
Product	Bottle or Cap Sealing Machine
Motor Power	1/2 HP
Cap Type	ROPP Aluminum Caps
Operation	Semi-Automatic
Construction	Heavy-Duty Steel Frame
Bottle Compatibility	Glass & Plastic Bottles
Power Supply	220–240V AC, 50Hz
Application	Bottle Cap Sealing
Cat No	Description
AL-639A	Bottle Sealing Machine (Hand operated)
AL-639B	Bottle Sealing Machine (Motorized)

Available models (3)

Cat. No.	Size	HSN
W-2448-S1	Small	
W-2448		
W-2448-S2	Large
