Bottle Or Cap Sealing Machine (Hand Operated)

Code: AL-639 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Bottle Or Cap Sealing Machine (Hand Operated)

The AVAIN LABS® Bottle or Cap Sealing Machine (Hand Operated) is a durable and easy-to-use solution designed for precise and secure sealing of bottles and containers across various industries. Ideal for small-scale production units, laboratories, and home-based businesses, this manual sealing machine ensures airtight closure, preserving product quality and extending shelf life.

Crafted with high-quality materials, the AVAIN LABS® sealing machine offers excellent stability, corrosion resistance, and long-lasting performance. Its ergonomic hand-operated mechanism allows for effortless operation without the need for electricity, making it highly portable and energy-efficient. The adjustable design supports multiple bottle sizes and cap types, providing versatility for applications in pharmaceuticals, food & beverage, cosmetics, and chemical industries. (Routine Dia – 25MM)

With its compact structure and low maintenance requirements, this cap sealing machine is perfect for businesses seeking an affordable yet reliable sealing solution. Whether you are packaging oils, syrups, chemicals, or cosmetic products, AVAIN LABS® delivers consistent sealing performance every time.

Key Features:

- Hand-operated, no power required
- Compatible with various bottle and cap sizes
- Sturdy, corrosion-resistant construction
- Compact, portable, and easy to maintain
- Ideal for small businesses, labs, and startups

Upgrade your packaging process with the AVAIN LABS® Bottle or Cap Sealing Machine and ensure professional, leak-proof sealing with minimal effort.
