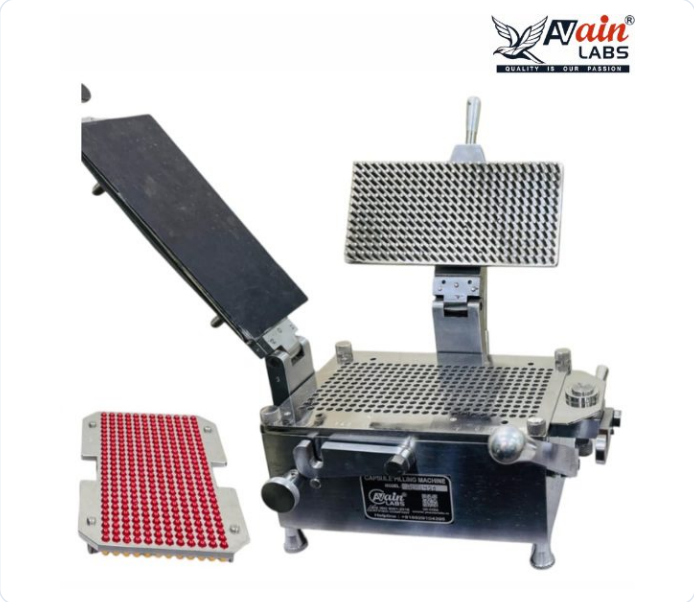
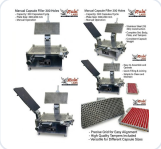
Capsule Filling Machine 300 capsules AL-644B

Code: AL-644B HSN: 84798970 GST: 18% Brand: AVAIN LABS





AVAIN LABS Capsule Filling Machine 300 capsules AL-644B

The AVAIN LABS Capsule Filling Machine AL-644B is a high-performance and efficient solution designed for accurate and uniform capsule filling in pharmaceutical, nutraceutical, herbal, and food industries. Engineered for precision and durability, this machine ensures consistent output and reduced manual effort, making it ideal for small to medium-scale production.

With a capacity of 300 capsules per cycle and a production output of up to 6000 capsules per hour, this machine enhances productivity while maintaining high accuracy. It supports a wide range of capsule sizes from 00 to 5, offering excellent flexibility for different applications.

Manufactured using high-quality stainless steel, the machine ensures hygiene, corrosion resistance, and long-lasting performance. Its user-friendly design, along with built-in safety features, allows smooth operation and minimizes the chances of overfilling or underfilling.

Available models (2)
