COPPER CALORIMETER Size 3"x2" (In Wooden Box)

Code: W-1612 GST: 18% Brand: AVAIN LABS

AVAIN LABS® COPPER CALORIMETER Size 3"x2" (In Wooden Box

The AVAIN LABS® Copper Calorimeter is a high-quality laboratory apparatus designed for accurate heat measurement and thermal experiments in physics and science laboratories. Manufactured using durable copper material, this calorimeter ensures excellent heat conductivity and reliable experimental performance for educational and laboratory applications.

With a convenient size of 3" × 2", the calorimeter is ideal for performing calorimetry experiments related to heat transfer, specific heat capacity, and thermal energy studies. The set is supplied in a sturdy wooden storage box, providing safe handling, organized storage, and long-lasting protection of the apparatus.

The AVAIN LABS® Copper Calorimeter is widely used in schools, colleges, science laboratories, and educational institutions for practical demonstrations and laboratory experiments.

Key Features:

- Premium-quality copper calorimeter
- Size: 3" × 2"
- Excellent heat conductivity for accurate experiments
- Durable and corrosion-resistant copper construction
- Supplied in a sturdy wooden storage box
- Ideal for heat and thermal energy experiments
- Easy to handle and maintain
- Suitable for educational and laboratory use
- Reliable and long-lasting laboratory apparatus
- Trusted quality product from AVAIN LABS®

Applications:

- Physics laboratory experiments
- Heat transfer studies
- Specific heat capacity experiments
- Science practical demonstrations
- Educational laboratory applications
- School and college laboratories

Product Specifications:

- Brand: AVAIN LABS®
- Product Name: Copper Calorimeter
- Size: 3" × 2"
- Material: Copper
- Packaging: Wooden Box
- Usage: Physics & Science Laboratory Applications
- Country of Origin: India

Choose the AVAIN LABS® Copper Calorimeter for accurate thermal experiments, durable construction, and dependable laboratory performance for educational and scientific applications.

Available models

Specifications	
AL-PY80	COPPER CALORIMETER Size 3"x2" (In Wooden Box
AL-PY80-B	COPPER CALORIMETER POT ONLY Size 3”x 2”
AL-PY80-C	COPPER CALORIMETER Size 4×3" (Wooden)

Available models (3)		
Cat. No.	**Size**	**HSN**
W-1612-S1	Small
