DIGITAL CONDUCTIVITY METER AL-30F

Code: AL-30F GST: 18% Brand: AVAIN LABS

AVAIN LABS® DIGITAL CONDUCTIVITY METER AL-30F

The AVAIN LABS® Digital Conductivity Meter AL-30F is a precision laboratory instrument designed for accurate conductivity measurement in chemical, pharmaceutical, educational, industrial, and research laboratories. This high-performance table model conductivity meter features a bright 3½ digit LED display for clear and easy reading of conductivity values with reliable accuracy.

Equipped with manual temperature compensation and digital cell constant adjustment, the AL-30F ensures stable and precise conductivity measurements across various sample conditions. The instrument is supplied complete with a conductivity cell and essential accessories, making it ideal for routine laboratory analysis and quality control applications.

Built with durable laboratory-grade components and user-friendly controls, the AVAIN LABS® AL-30F Digital Conductivity Meter offers dependable performance for water testing, chemical analysis, and research work.

Key Features:

- Precision digital conductivity meter
- Model: AL-30F
- Bright 3½ digit LED display
- Manual temperature compensation facility
- Digital cell constant adjustment
- Accurate and stable conductivity measurement
- Durable table model design
- Easy operation with clear digital readings
- Supplied with conductivity cell & accessories
- Suitable for laboratory, industrial & educational applications
- Reliable and long-lasting performance
- Trusted quality product from AVAIN LABS®

Technical Specifications:

Applications:

- Water quality testing
- Chemical laboratory analysis
- Educational laboratory experiments
- Industrial quality control
- Research and scientific applications
- Pharmaceutical and environmental testing

Product Specifications:

- Brand: AVAIN LABS®
- Product Name: Digital Conductivity Meter
- Model Number: AL-30F
- Type: Table Model
- Usage: Laboratory & Industrial Applications
- Country of Origin: India

Choose the AVAIN LABS® AL-30F Digital Conductivity Meter for accurate conductivity analysis, dependable laboratory performance, and professional-grade measurement reliability.

Specifications

Display	3½ Digit LED Display
Temperature Compensation	Manual Temperature Compensation
Cell Constant Adjustment	Digital Adjustment Facility
Model Type	Table Model
Accessories Supplied	Conductivity Cell & Other Accessories

Available models (3)

Cat. No.	Size	HSN
AL-30F-S1	100 g	
AL-30F		
AL-30F-S2	1 kg
