Double Cone Blender 5ltr. Cap (College Model) without buff AL-657A

Code: AL-657A GST: 18% Brand: AVAIN LABS

AVAIN LABS Double Cone Blender 5ltr. Cap (College Model) without buff AL-657A

The AVAIN LABS Double Cone Blender is a high-performance solution designed for uniform mixing of dry powders and granules across pharmaceutical, chemical, food, and nutraceutical industries. Engineered for precision and efficiency, this blender ensures consistent, contamination-free blending with minimal product degradation.

? Key Features & Benefits

- ? Uniform & Gentle BlendingThe double cone design creates a smooth tumbling action, ensuring homogenous mixing without damaging fragile materials.
- ? Ideal for Small-to-Large Batch MixingPerfect for blending small quantities of active ingredients with larger bulk materials, delivering consistent results every time.
- ? Premium SS 304 ConstructionThe mixing vessel is made from high-quality Stainless Steel 304, ensuring durability, corrosion resistance, and hygiene compliance.
- ? Efficient Internal Blade DesignEquipped with sliding angular blades, enhancing mixing efficiency and reducing blending time.
- ? Powerful Drive SystemOperated by a single-phase motor , providing smooth, stable, and reliable performance.
- ?Timer ControllerAdjustable timer settings allow precise control over mixing intensity for different materials.
- ? Advanced Safety FeaturesIncludes interlocking systems and protective guards to ensure safe and secure operation.
- ? Robust StructureMounted on a heavy-duty mild steel stand for stability and long-lasting industrial use

? ALL TYPES OF CUSTOMIZATION AVAILABLE

We offer complete customization as per your industrial requirements

Available models (3)

Cat. No.	Model / Size	HSN
AL-657A	5ltr. Cap (College Model) without buff	
AL-657E-SS	5 ltr. Cap Industrial Model Without Speed Controller	
AL-657F-SS	5 ltr. Cap Industrial Model With Speed Controller
