External Vacuum Pack DZ-600

Code: DZ-600 GST: 18% Brand: AVAIN LABS

- Large sealing capacity for bigger packaging bags
- Adjustable vacuum and sealing controls
- Fast and efficient vacuum extraction process
- User-friendly control panel for easy operation
- Suitable for commercial and industrial packaging applications
- Energy-efficient and low-maintenance design
- Ideal for continuous packaging operations

Applications

The AVAIN LABS® External Vacuum Pack DZ-600 is ideal for packaging:

- Meat, poultry, and seafood
- Frozen and refrigerated foods
- Snacks, grains, and dry foods
- Tea, coffee, and spices
- Pharmaceutical and medical products
- Electronic and industrial components

Benefits of Vacuum Packaging

Vacuum packaging helps:

- Extend product shelf life
- Preserve freshness and flavor
- Prevent moisture and oxidation damage
- Reduce contamination and freezer burn
- Improve storage and transportation efficiency

AVAIN LABS® External Vacuum Pack DZ-600

The AVAIN LABS® External Vacuum Pack DZ-600 is a powerful and efficient industrial vacuum sealing machine designed for professional airtight packaging and food preservation applications. Engineered for commercial and industrial use, this external vacuum packaging machine delivers strong vacuum performance, secure sealing, and reliable operation for a wide variety of packaging requirements.

Built with durable industrial-grade construction and advanced vacuum sealing technology, the DZ-600 effectively removes air from packaging bags before sealing, helping extend product shelf life, preserve freshness, and protect products from moisture, oxidation, contamination, and spoilage. Its large sealing capacity and user-friendly controls make it ideal for continuous packaging operations in food processing units, restaurants, supermarkets, pharmaceutical industries, and manufacturing facilities.

The machine supports vacuum sealing for large-sized bags and various packaging materials, making it suitable for packaging meat, seafood, dry foods, grains, tea, coffee, electronic components, medical supplies, and industrial products. With adjustable sealing and vacuum settings, the AVAIN LABS® DZ-600 ensures consistent, airtight, and professional packaging results.

Key Features

- High-performance external vacuum sealing system
- Strong airtight and leak-proof sealing performance
- Heavy-duty industrial construction for long-term durability

Specifications

Model No	DZ-600
Power	0.8Kw
Voltage	220-240v – 50-60Hz
Sealing Speed	1-4 times-Min
Air Charging Volume Vacuum Pump	20m³-H
Sealing Bar Size	600 x 10mm
Item Weight	80Kg
Film Thickness (Single)	±0.18mm
Package	Wooden

Available models (3)

Cat. No.	Size	HSN
DZ-600-S1	Small	
DZ-600		
DZ-600-S2	Large
