Haemocytometer Set (All basic components) HS-1327

Code: HS-1327 HSN: 70179090 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Haemocytometer Set (All basic components) HS-1327

The AVAIN LABS® Haemocytometer Set HS-1327 is a premium-quality laboratory counting chamber set designed for accurate microscopic cell counting in pathology laboratories, research centers, educational institutions, and diagnostic applications. Manufactured with precision components and durable materials, this haemocytometer set is ideal for counting blood cells, microorganisms, sperm cells, and other microscopic particles with reliability and consistency.

This complete haemocytometer kit includes all essential basic components required for laboratory use, making it highly suitable for medical students, laboratory technicians, microbiologists, and research professionals. The compact storage case ensures safe handling, organized storage, and easy portability.

Designed for precision and long-term durability, the AVAIN LABS® Haemocytometer Set delivers dependable performance for routine laboratory procedures and educational demonstrations.

Key Features:

- High-quality Haemocytometer Set with all basic components
- Model: HS-1327
- Precision-engineered counting chamber for accurate cell counting
- Ideal for pathology, microbiology, hematology, and research applications
- Durable laboratory-grade construction
- Compact and easy-to-carry storage case
- Easy to use, clean, and maintain
- Suitable for educational and professional laboratory use
- Trusted quality product from AVAIN LABS®

Applications:

- Blood cell counting
- Hematology laboratory testing
- Microbiology and research work
- Educational laboratory experiments
- Diagnostic and pathology labs
- Medical and nursing colleges

Product Specifications:

- Brand: AVAIN LABS®
- Product Name: Haemocytometer Set
- Model Number: HS-1327
- Components: All Basic Components Included
- Usage: Laboratory & Educational Use
- Country of Origin: India

Choose the AVAIN LABS® Haemocytometer Set HS-1327 for precision cell counting, reliable laboratory performance, and superior quality suitable for professional and educational applications.

Available models (3)

Cat. No.	Size	HSN
HS-1327-S1	Small	70179090
HS-1327-S2	Large	70179090
