HUMAN EXCRETORY SYSTEM MODEL

Code: W-2782 GST: 18% Brand: AVAIN LABS

AVAIN LABS®HUMAN EXCRETORY SYSTEM MODEL

AVAIN LABS® Human Excretory System Model is a high-quality educational anatomical model designed to provide a clear and visual representation of the human excretory system. It is an ideal teaching aid for schools, colleges, universities, biology laboratories, medical and nursing institutes, and science education.

This three-dimensional anatomical model helps students understand the major organs and structures involved in the human excretory system and their role in the removal of metabolic waste from the body. It provides an effective way for teachers and educators to demonstrate complex biological concepts in a simple and engaging manner.

Key Features

- Brand: AVAIN LABS®
- Product: Human Excretory System Model
- Type: Educational Anatomical Model
- Design: Three-dimensional representation of the human excretory system
- Application: Biology teaching, anatomy demonstrations, and practical education
- Suitable For: Schools, colleges, universities, laboratories, medical and nursing institutes
- Purpose: Study and demonstration of the human excretory system

Educational Value

The AVAIN LABS® Human Excretory System Model makes it easier for students to visualize the structure and arrangement of the organs associated with the excretory system. It can support classroom teaching, laboratory demonstrations, biology practical sessions, and science projects.

The model is particularly useful for explaining concepts related to human anatomy, excretion, urinary function, and the role of major excretory organs.

Applications

Ideal for:

- School biology classrooms
- Biology laboratories
- Medical and nursing education
- Anatomy and physiology teaching
- College and university demonstrations
- Science exhibitions
- Biology practical sessions
- Educational projects
- Human anatomy teaching
- Life science education

Why Choose AVAIN LABS® Human Excretory System Model?

The AVAIN LABS® Human Excretory System Model provides a practical and visual approach to teaching human anatomy and excretory functions. Its three-dimensional presentation helps students develop a clearer understanding of anatomical structures compared with textbook-only learning.

Choose AVAIN LABS® Human Excretory System Model as an effective teaching aid for biology, anatomy, physiology, and life science education.
