HUMAN TONGUE MODEL

Code: W-2367 GST: 18% Brand: AVAIN LABS

AVAIN LABS® HUMAN TONGUE MODEL

The AVAIN LABS® Human Tongue Model is an educational anatomical model designed to provide a clear and detailed representation of the human tongue for teaching, demonstration, and academic study. It is an ideal teaching aid for understanding the structure and anatomy of the tongue in a simple and visually engaging way.

This Human Tongue Anatomical Model is suitable for use in medical colleges, nursing institutions, dental colleges, biology laboratories, schools, universities, and healthcare training centers. It helps students and educators study the basic anatomical features of the human tongue and understand its role in important functions such as taste, speech, swallowing, and food manipulation.

The model is useful for classroom demonstrations and practical anatomy lessons, allowing teachers and students to examine the anatomical structure of the tongue more effectively than through textbook illustrations alone.

Key Features

- Detailed Human Tongue Anatomical Model
- Designed for educational and teaching purposes
- Helps demonstrate the basic anatomy and structure of the human tongue
- Useful for studying the role of the tongue in taste, speech, swallowing, and food manipulation
- Ideal for classroom demonstrations and practical anatomy lessons
- Suitable for medical, dental, nursing, and biology education
- Easy-to-understand visual teaching aid

Applications

The AVAIN LABS® Human Tongue Model is suitable for medical colleges, dental colleges, nursing schools, biology laboratories, universities, schools, and healthcare training institutions. It can be used by teachers and students for anatomy demonstrations, classroom teaching, practical training, and educational presentations.
