MANUAL RIBBON CODING MACHINE

Code: W-1477 GST: 18% Brand: AVAIN LABS

AVAIN LABS® MANUAL RIBBON CODING MACHINE

The AVAIN LABS® Manual Ribbon Coding Machine is a high-performance industrial printing solution designed for batch coding, date printing, expiry marking, lot numbering, and labeling applications across pharmaceutical, food, cosmetic, packaging, and manufacturing industries. Engineered with precision and durability, this manual ribbon coding machine delivers clear, accurate, and professional-quality printing on various packaging materials.

Built with a robust metal body and user-friendly operation system, the machine ensures reliable performance with minimal maintenance. The AVAIN LABS® Manual Ribbon Coding Machine uses hot ribbon printing technology to provide smudge-free, fast-drying, and long-lasting print results on pouches, labels, plastic bags, laminated films, paper cartons, and flexible packaging materials.

Its compact tabletop design makes it ideal for small-scale, medium-scale, and industrial production environments. The machine is easy to operate, energy-efficient, and capable of handling continuous coding applications with consistent print quality.

Designed for precision batch coding operations, this machine is widely used for printing manufacturing dates, expiry dates, MRP, batch numbers, and product details with high clarity and accuracy.

Key Features

- High-quality ribbon coding and batch printing
- Clear and durable print output
- Compact and sturdy tabletop design
- Easy manual operation and maintenance
- Fast heating and efficient performance
- Suitable for various packaging materials
- Long-lasting and energy-efficient system
- Industrial-grade construction for continuous use

Applications

- Pharmaceutical packaging industries
- Food and beverage packaging
- Cosmetic and personal care products
- Chemical and industrial labeling
- Flexible pouch and laminated film printing

Benefits

- Produces clean and professional printing results
- Reduces manual marking errors
- Improves packaging productivity
- Supports multiple coding applications
- Low maintenance and easy operation
- Ideal for industrial and commercial use

Why Choose AVAIN LABS®?

AVAIN LABS® is a trusted manufacturer of industrial packaging and coding machinery known for innovation, reliability, and superior engineering quality. The Manual Ribbon Coding Machine is designed to deliver precise, efficient, and cost-effective coding solutions for modern packaging industries.

Available models

Specifications

Cat no	Capacity
AL-852A	Manual Ribbon Coding 3 Lines
AL-852B	Manual Ribbon Coding 4 Lines
AL-852C	Semi Auto Ribbon Coding 4 Lines
AL-852D	Solid Ink High Speed Batch Coding Machine SS Body 390mm
AL-852E	Solid Ink High Speed Batch Coding Machine MS Body 190mm
AL-852F	PAD Printing Machine
AL-852G	Solid Ink Online Coding 500mm
AL-852H	Solid Ink Online Coding 600mm
AL-852I	Online Ribbon Coding Machine 4 Line, 500mm
AL-852J	Online Ribbon Coding Machine 4 Line, 600mm
AL-852K	Online Ribbon Coding Machine 5 Line, 500mm
