PNEUMATIC LIQUID FILLING MACHINE

Code: W-845 GST: 18% Brand: AVAIN LABS

AVAIN LABS® PNEUMATIC LIQUID FILLING MACHINE

The AVAIN LABS AL-839A Pneumatic Liquid Filling Machine is a compact, high-precision solution designed for accurate and efficient small-volume liquid filling. Built for reliability and ease of operation, this semi-automatic machine is ideal for industries such as pharmaceuticals, cosmetics, food & beverage, and chemicals.

Engineered with advanced pneumatic technology, the AL-839A ensures consistent filling accuracy with minimal wastage. Its single-head design makes it perfect for small to medium production units, offering excellent control over filling volumes and speed. The machine's durable construction and user-friendly interface allow smooth operation, easy cleaning, and low maintenance.

Technical Specifications

- Model No: AL-839A
- Machine Type: Pneumatic Liquid Filling Machine (Semi-Automatic)
- Filling Range: 10 ml – 100 ml
- Filling Speed: 5 – 25 shots per minute
- Filling Precision: ±1%
- No. of Head: Single Head
- Air Pressure Requirement: 0.4 – 0.6 MPa
- Power Consumption: 20W
- Voltage: 110V – 220V
- Packing Size: 920 × 340 × 330 mm
- Weight: 17 kg

Available Model

You are requested to select the appropriate range prior to placing your order.

Specifications	
Cat no	Capacity
AL-839A	10ml – 100ml, Single Head heavy duty (Semi Automatic)
AL-839B	10ml – 100ml, Double Head heavy duty (Semi Automatic)
AL-839C	50ml – 500ml, Single Head heavy duty (Semi Automatic)
AL-839D	50ml – 500ml, Double Head heavy duty (Semi Automatic)
AL-839E	100ml – 1000ml, Single Head heavy duty (Semi Automatic)
AL-839F	100ml – 1000ml, Double Head heavy duty (Semi Automatic)
AL-839G	300ml – 2600ml, Single Head heavy duty (Semi Automatic)
AL-839H	500ml – 5000ml, Single Head heavy duty (Semi Automatic)
