PORTABLE PH METER HANDY AL-39A

Code: AL-39A GST: 18% Brand: AVAIN LABS

AVAIN LABS® PORTABLE PH METER HANDY AL-39A

The AVAIN LABS® Portable pH Meter Handy AL-39A is a compact digital instrument designed for convenient pH measurement in laboratory, educational, water testing, and field applications. Its portable design and easy-to-read digital display make it a practical solution for users who require quick and convenient pH testing.

The meter features a 3½-digit LCD display housed in a durable ABS plastic body, along with convenient touch switches and a pH electrode for measurement.

Key Features

- Portable and handy digital pH meter
- Model: AL-39A
- 3½-digit LCD display for clear digital readings
- Durable and lightweight ABS plastic body
- Convenient touch-switch operation
- Supplied with a pH electrode
- Compact design for laboratory and field use
- Suitable for educational and practical applications
- Useful for routine pH measurement

pH Measurement

pH is an important parameter used to indicate whether an aqueous solution is acidic, neutral, or alkaline. The AVAIN LABS® Portable pH Meter uses a pH electrode to measure the hydrogen-ion activity of a solution and provides a digital reading on the LCD display.

The AL-39A Portable pH Meter is suitable for demonstrating pH measurement principles in educational laboratories as well as for routine testing applications where portable equipment is preferred.

Applications

The AVAIN LABS® Portable pH Meter Handy can be used for:

- School and college laboratory practicals
- Water quality testing
- Educational science experiments
- Environmental studies
- Laboratory solution testing
- Field testing applications
- pH measurement demonstrations
- Chemistry and science laboratories
- STEM education activities

Compact ABS Body

The ABS plastic body provides a practical lightweight housing for portable use. The combination of a 3½-digit LCD display, touch switches, and pH electrode provides a straightforward setup for pH measurement.

Ideal for Educational & Laboratory Use

The AVAIN LABS® AL-39A Portable pH Meter Handy is a useful addition to laboratory equipment collections where convenient digital pH measurement is required. Its compact form makes it suitable for both classroom demonstrations and portable testing applications.
