Rotary Shaker (Vdrl Shaker)

Code: W-3366 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Rotary Shaker (Vdrl Shaker)

The AVAIN LABS® Rotary Shaker (VDRL Shaker) is a reliable laboratory shaking instrument designed for serological VDRL tests and clinical diagnostic procedures requiring gentle and uniform agitation. The rotary shaker provides smooth concentric motion and adjustable shaking speed, making it suitable for routine laboratory applications where controlled and consistent agitation is required.

The VDRL Shaker features a robust outer body constructed from mild steel with an epoxy powder-coated finish, providing durability and suitability for regular laboratory use. The 13" × 13" carrier platform is fitted with a geared motor that produces smooth concentric motion. A built-in time switch allows convenient operation for a selected duration, while the variable speed control provides an adjustable range of 40–200 RPM.

The apparatus is supplied with an SS Spring Blade Holder and is designed to operate on a 220–230 Volt AC power supply.

Key Features

- Designed specifically for VDRL and serological testing applications
- Suitable for clinical diagnostic procedures requiring gentle agitation
- Robust mild steel outer body
- Durable epoxy powder-coated finish
- 13" × 13" carrier/platform for laboratory applications
- Geared motor for smooth and consistent concentric motion
- Variable speed range of 40–200 RPM
- Built-in 0–15 minute time switch
- Supplied with SS Spring Blade Holder
- Designed for reliable and uniform shaking
- Suitable for routine laboratory and diagnostic applications
- Operates on 220–230 Volt AC supply

Technical Specifications

Applications

The AVAIN LABS® Rotary Shaker is suitable for laboratories and institutions involved in:

- VDRL (Venereal Disease Research Laboratory) testing
- Serological testing
- Clinical diagnostic procedures
- Gentle agitation of laboratory samples
- Pathology laboratory applications
- Medical and diagnostic laboratory experiments
- Educational and research laboratory applications

Ideal for Clinical & Diagnostic Laboratories

The AVAIN LABS® VDRL Shaker is an excellent choice for pathology laboratories, medical laboratories, clinical diagnostic centers, hospitals, research laboratories, medical colleges, and educational institutions. Its adjustable RPM, timer control, and smooth concentric motion provide convenient operation for applications requiring controlled and gentle agitation.

With its durable construction and practical laboratory design, the AVAIN LABS® Rotary Shaker (VDRL Shaker) offers a dependable solution for routine serological and clinical laboratory procedures.

Product Name: AVAIN LABS® Rotary Shaker (VDRL Shaker) Category: Laboratory Shaker / Clinical Diagnostic Equipment Primary Application: VDRL & Serological Testing Speed: 40–200 RPM Variable Timer: 0–15 Minutes Carrier: 13" × 13" Power Supply: 220–230 V AC

Available models

Specifications

Product	Rotary Shaker / VDRL Shaker
Application	VDRL Test, Serological & Clinical Diagnostic Procedures
Outer Body	Mild Steel
Finish	Epoxy Powder Coated
Carrier Size	13" × 13"
Motion	Concentric Motion
Motor	Geared Motor
Speed Range	Variable, 40–200 RPM
Timer Range	0–15 Minutes
Holder	SS Spring Blade Holder
Power Supply	220–230 Volt AC
Cat No	Description
AL-538A	Analog Model
AL-538B	Digital RPM and Timer Model

Available models (3)

Cat. No.	Size	HSN
W-3366-S1	Small	
W-3366		
W-3366-S2	Large
