PORTABLE CONDUCTIVITY METER AL-39B

Code: AL-39B GST: 18% Brand: AVAIN LABS

AVAIN LABS® PORTABLE CONDUCTIVITY METER AL-39B

The AVAIN LABS® Portable Conductivity Meter AL-39B is a compact and convenient instrument designed for measuring the electrical conductivity of liquid samples. Its portable design makes it suitable for laboratories, educational institutions, water testing, environmental studies, science practicals, and field applications.

Featuring a clear 3½-digit LCD display, battery-operated design, and durable ABS plastic body, the AL-39B provides a practical solution for conductivity measurement where portability and ease of use are important.

Key Features

- 3½-digit LCD display for clear and easy reading
- Battery operated for convenient use without a fixed power connection
- Compact and portable design
- Durable ABS plastic body
- Suitable for laboratory and educational applications
- Easy to carry for field and on-site measurements
- Useful for practical demonstrations and routine conductivity testing

Applications

The AVAIN LABS® Portable Conductivity Meter AL-39B is suitable for:

- Water conductivity testing
- School and college science laboratories
- Chemistry and environmental science practicals
- Educational demonstrations
- Laboratory research and routine testing
- Environmental monitoring applications
- Field and on-site conductivity measurements
- Water quality studies

Product Specifications

Educational & Laboratory Benefits

The AL-39B Portable Conductivity Meter helps students and laboratory users understand the concept of electrical conductivity in liquids and its relationship to dissolved ions. Its portable battery-operated design makes it convenient for laboratory practicals, educational demonstrations, and field-based learning activities.

The compact ABS plastic body also makes the instrument easy to handle and transport between laboratory and field locations.

Why Choose AVAIN LABS® Portable Conductivity Meter?

The AVAIN LABS® AL-39B combines a portable design, clear LCD display, battery operation, and ABS plastic construction in a convenient conductivity measurement instrument. It is suitable for educational, laboratory, environmental, and water-testing applications where portability is important.

Specifications	
Brand	AVAIN LABS®
Model	AL-39B
Product Type	Portable Conductivity Meter
Display	3½-Digit LCD
Operation	Battery Operated
Body Material	ABS Plastic
Design	Portable

Available models (3)			
Cat. No.	**Model / Size**	**Size**	**HSN**
AL-39B-S1		100 g	
AL-39B-S2		1 kg	
AL-39B	5950-- Portable Conductivity Meter
