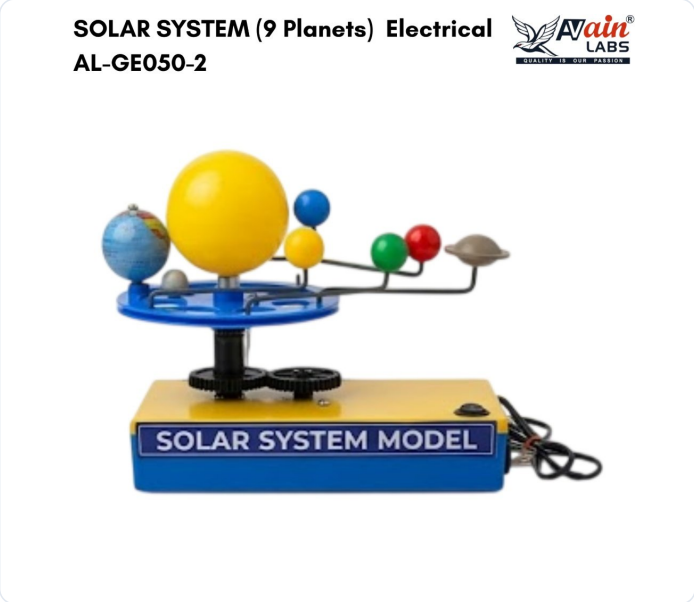
SOLAR SYSTEM (9 Planets)

Code: AL-GE050 HSN: 9023 GST: 18% Brand: AVAIN LABS



AVAIN LABS® SOLAR SYSTEM (9 Planets)

The AVAIN LABS® Solar System (9 Planets) is an educational astronomy model designed to help students understand the structure and arrangement of the Solar System. This visual teaching model provides an engaging way to learn about the Sun, planets, planetary positions, and basic astronomy concepts through classroom demonstrations and hands-on learning.

Ideal for school science laboratories, classrooms, astronomy education, science exhibitions, educational institutions, and teaching demonstrations, the model helps make complex astronomical concepts easier to understand and visually explore.

Key Features

- Educational Solar System model featuring 9 planets
- Designed for school and educational use
- Provides a clear visual representation of the Solar System
- Helps students identify and learn about the planets
- Suitable for classroom teaching and science demonstrations
- Useful for astronomy and general science education
- Supports interactive and visual learning
- Ideal for science projects, exhibitions, and laboratory displays
- Suitable for schools, educational institutions, and science learning centers

Applications

The AVAIN LABS® Solar System (9 Planets) can be used for teaching and demonstrating:

- Solar System structure
- Identification of planets
- Planetary arrangement and positions
- Basic astronomy
- Space science
- Earth and planetary science
- School science projects
- Classroom demonstrations
- Science exhibitions and educational displays

Educational Benefits

This Solar System educational model helps students develop a basic understanding of our planetary system through visual learning. It can be used by teachers to introduce astronomy topics and explain the relationship between the Sun and planets in an easy-to-understand format.

The model is especially useful for younger learners who benefit from three-dimensional visual teaching aids when studying planets, space, and the Solar System.

Ideal For

The AVAIN LABS® SOLAR SYSTEM (9 PLANETS) is suitable for school science laboratories, classrooms, science teaching departments, astronomy clubs, educational institutions, science exhibitions, and educational project displays.

Choose AVAIN LABS® Solar System Model as an effective visual teaching aid for introducing students to the fascinating world of astronomy, planets, and space science.

Available models

Available models (4)		
Cat. No.	**Model / Size**	**HSN**
AL-GE050-1	Manual	9023
AL-GE050-2	Electrical	9023
AL-GE050-3	IMPORTED Automatic Rotation with Voice Interaction	9023
AL-GE050-4	Motorized (Basic Superior Quality)	9023
