PORTABLE HAEMOGLOBIN METER AL-33B

Code: AL-33B GST: 18% Brand: AVAIN LABS

AVAIN LABS® PORTABLE HAEMOGLOBIN METER AL-33B

The AVAIN LABS® Portable Haemoglobin Meter AL-33B is a compact, high-performance digital haemoglobin testing device designed for fast, easy and accurate haemoglobin measurement. Its portable design makes it suitable for use in laboratories, hospitals, clinics, diagnostic centres, health camps and point-of-care testing applications.

The meter operates through a fully automated testing process, making haemoglobin monitoring simple and convenient. The device is designed to deliver results quickly, with test results available in approximately 15 seconds.

The AVAIN LABS® AL-33B Portable Haemoglobin Meter requires no manual adjustment or routine calibration before testing, helping provide a convenient and efficient testing experience. The device features an auto-calibration system for reliable operation.

With its digital operation and easy-to-use design, the AL-33B is an ideal solution for rapid haemoglobin monitoring where portability, speed and ease of operation are important.

Key Features

- Brand: AVAIN LABS®
- Model: AL-33B
- Product Type: Portable Digital Haemoglobin Meter
- Portable & Compact Design
- High-Performance Digital Testing
- Fully Automated Operation
- Fast & Easy Haemoglobin Monitoring
- Test Result Time: Approximately 15 Seconds
- Calibration: Auto Calibration
- Manual Adjustment: Not Required
- Memory Capacity: Up to 1000 Test Results
- Testing Strips Included: 10 Testing Strips
- Measuring Range: 5–25 gm/dL*
- Suitable for Rapid Haemoglobin Testing

*Please verify the exact measuring range from the product's technical specification/manual before publishing.

Product Description

The AVAIN LABS® Portable Haemoglobin Meter AL-33B is designed to provide convenient digital haemoglobin measurement through a fast and automated testing process. The portable instrument allows users to perform haemoglobin tests efficiently while delivering results within approximately 15 seconds.

The device features a simple digital operation and an integrated auto-calibration system, eliminating the need for manual adjustment or calibration during routine operation. This helps make the testing process convenient and efficient for regular haemoglobin monitoring.

With the ability to store up to 1000 test results, the meter provides convenient access to previous test records. The product is supplied with 10 testing strips, allowing users to begin testing as per the supplied kit configuration.

Its compact and portable design makes the AVAIN LABS® AL-33B suitable for professional healthcare and diagnostic environments where fast haemoglobin testing is required.

Applications

The AVAIN LABS® Portable Haemoglobin Meter AL-33B is suitable for use in:

- Hospitals
- Clinics
- Diagnostic Laboratories
- Pathology Laboratories
- Medical Centres
- Health Camps
