Tablet Counter (Aluminium)

Code: W-1861 GST: 18% Brand: AVAIN LABS

- Suitable for repeated professional use
- Simple operation with minimal maintenance
- Designed for pharmaceutical and laboratory applications

Applications

- Pharmaceutical Manufacturing
- Retail & Hospital Pharmacies
- Capsule Dispensing
- Quality Control Laboratories
- Research Laboratories
- Educational & Pharmacy Colleges
- Medical Institutions
- Pharmaceutical Packaging Units

Product Specifications

- Brand: AVAIN LABS®
- Product Name: Tablet Counter (Aluminium)
- Material: High-Grade Aluminium
- Capacity: 100 Holes
- Product Type: Pharmaceutical Capsule Counting Tray
- Application: Capsule Counting, Dispensing & Laboratory Use

Available models

AVAIN LABS® Tablet Counter (Aluminium)

The AVAIN LABS® Tablet Counter (Aluminium) is a high-quality pharmaceutical counting device designed for fast, accurate, and efficient capsule counting in pharmacies, pharmaceutical manufacturing units, hospitals, research laboratories, and educational institutions. Manufactured from premium-grade aluminium, this durable capsule counting tray ensures long-lasting performance, corrosion resistance, and easy maintenance.

Engineered for precision, the capsule counter features a 100-hole counting plate that enables users to count capsules quickly while minimizing handling errors. Its smooth aluminium surface allows capsules to move effortlessly into the counting holes, improving productivity during dispensing, packaging, quality control, and laboratory operations.

The lightweight yet sturdy construction makes it ideal for daily use in pharmaceutical environments where accuracy and hygiene are essential. Whether used for dispensing prescription medications, capsule filling operations, or educational demonstrations, the AVAIN LABS® Tablet Counter delivers reliable and consistent performance.

Key Features

- Premium-quality aluminium construction
- 100-hole capsule counting tray for fast and accurate counting
- Durable, corrosion-resistant, and easy to clean
- Lightweight and ergonomic design
- Smooth surface for efficient capsule handling
