SEASONS APPARATUS

Code: AL-GE040 HSN: 9023 GST: 18% Brand: AVAIN LABS

AVAIN LABS® SEASONS APPARATUS

The AVAIN LABS® Seasons Apparatus (AL-GE040) is a high-quality educational geography and astronomy model designed to demonstrate the formation of seasons caused by the Earth's revolution around the Sun and the tilt of the Earth's axis. This scientifically designed apparatus helps students clearly understand seasonal changes, planetary motion, and Earth-Sun relationships through practical demonstration and visual learning.

Widely used in schools, science laboratories, geography classrooms, and educational institutes, the Seasons Apparatus provides an interactive and engaging way to explain important astronomical concepts. The model features a rotating Earth globe, Sun representation, and mechanical movement system that effectively demonstrates how summer, winter, spring, and autumn occur during Earth's orbit.

Manufactured with durable materials and precision engineering, the AVAIN LABS® Seasons Apparatus is ideal for classroom teaching, laboratory demonstrations, and science exhibitions.

Specifications

- Product Name: AVAIN LABS® Seasons Apparatus
- Model Number: AL-GE040
- Type: Geography & Astronomy Educational Apparatus
- Application: Science, Geography & Astronomy Education
- Material: High-Quality Durable Components
- Operation: Mechanical Demonstration Model

Key Features

- Demonstrates Earth's revolution and seasonal changes
- Explains the concept of Earth's axial tilt
- Interactive and easy-to-understand educational model
- Durable construction for long-lasting classroom use
- Smooth mechanical movement system
- Ideal for geography and astronomy demonstrations
- Enhances practical and visual learning
- Suitable for schools, colleges, and science labs

Applications

- Schools and educational institutions
- Geography and astronomy classrooms
- Science laboratories
- Educational demonstrations and exhibitions
- Earth science learning programs
- Student practical activities

Why Choose AVAIN LABS® Seasons Apparatus?

The AVAIN LABS® Seasons Apparatus AL-GE040 is designed to simplify complex astronomical concepts through realistic demonstration and interactive learning. It helps students understand how the Earth's movement around the Sun causes seasonal variations, making science education more practical and engaging.

AVAIN LABS® is trusted for manufacturing premium-quality educational and laboratory equipment that meets the needs of modern teaching and scientific learning.

Available models

Available models (2)		
Cat. No.	**Model / Size**	**HSN**
AL-GE040-2	Superior Quality	9023
AL-GE040-3	Electrical	9023
