Semi Auto Motorized Capping Machine 10mm-50mm DDX-450

Code: DDX-450 GST: 18% Brand: AVAIN LABS

AVAIN LABS Semi Auto Motorized Capping Machine 10mm-50mm DDX-450

Salient Features

Motorized Capping: Equipped with a motorized capping mechanism that applies precise and uniform torque to ensure reliable and consistent sealing across all bottles, reducing the risk of leaks or over-tightening.

User-Friendly Interface: Intuitive control panel or interface enables operators to easily adjust settings, monitor operation status, and troubleshoot issues, enhancing overall usability and productivity.

Easy Setup and Adjustment: Simple setup procedures and tool-free adjustments facilitate quick changeovers between different cap sizes and types, minimizing downtime and maximizing productivity.
