Semi Automatic Cuff Machine QZD-7040

Code: QZD-7040 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Semi Automatic Cuff Machine QZD-7040

The AVAIN LABS® Semi Automatic Cuff Machine QZD-7040 is a high-performance industrial packaging solution designed for efficient cuff wrapping and sealing applications. Engineered for precision, durability, and productivity, this semi automatic cuff sealing machine is ideal for businesses involved in beverage packaging, carton bundling, bottled product wrapping, and shrink film applications.

Built with a robust industrial-grade structure, the QZD-7040 delivers consistent sealing quality while reducing manual labor and improving packaging speed. Its user-friendly operation and compact design make it suitable for manufacturing plants, warehouses, food & beverage industries, printing facilities, and e-commerce packaging operations.

Key Features

- High-efficiency semi automatic cuff sealing system
- Durable heavy-duty steel construction for long-lasting performance
- Compatible with PE shrink films and various packaging materials
- Accurate sealing and cutting for professional packaging results
- Adjustable sealing settings for different product sizes
- Smooth conveyor-based operation for increased productivity
- Low maintenance and energy-efficient design
- Easy-to-use control panel for convenient operation
- Compact footprint suitable for industrial and commercial environments

Applications

The AVAIN LABS® QZD-7040 Semi Automatic Cuff Machine is widely used for:

- Bottled water packaging
- Beverage bundling
- Carton and box wrapping
- Food product packaging
- Industrial product bundling
- Retail and e-commerce packaging
- Printing and stationery packaging

Technical Advantages

This semi automatic cuff wrapping machine is engineered to provide stable sealing performance with minimal downtime. The precision sealing mechanism ensures secure packaging while maintaining high output quality. Its versatile configuration supports multiple product dimensions, making it an excellent choice for businesses seeking flexible packaging automation.

Why Choose AVAIN LABS® QZD-7040?

- Reliable industrial packaging performance
- Enhanced packaging efficiency and speed
- Reduced labor costs
- Professional sealing quality
- Suitable for medium to high-volume packaging operations
- Trusted AVAIN LABS® engineering and support

Technical Specifications Comparison

Specifications

Model No	QZD-7040 | QZD-9040
Power Source	220~240V ~ 50~60Hz | 220~240V ~ 50~60Hz
Power	1.25 Kw | 1.45 Kw
Packing Speed	2~8 Pcs/Min | 2~8 Pcs/Min
Propulsion Plate Load	20 Kg | 20 Kg
Maximum Package Size	500 x 330 x 350 mm | 750 x 330 x 350 mm
Minimum Package Size	120 x 120 x 100 mm | 120 x 120 x 100 mm
Cutting Edge	370 mm | 370 mm
Thin Film Formula	W + 100 | W + 100
Overall Dimension	1100 x 900 x 1560 mm | 1100 x 1100 x 1560 mm
Machine Weight	175 Kg | 245 Kg
Film Thickness	0.03~0.25 (PE) | 0.03~0.25 (PE)
