Water Bath Tissue Flotation

Code: AL-516 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Water Bath Tissue Flotation

The AVAIN LABS® Water Bath Tissue Flotation is a precision laboratory instrument designed for tissue flotation, histology, histopathology, and pathology laboratory applications. It provides controlled and consistent water temperature to facilitate the smooth flotation and handling of tissue sections during routine laboratory procedures.

Featuring a double-walled construction, the unit has an aluminum inner body and an outer body made of mild steel sheet with an epoxy powder-coated finish, offering durability, thermal stability, and easy maintenance. The temperature is thermostatically controlled up to 80 °C with an accuracy of ±0.5 °C, ensuring reliable and consistent operating conditions.

The AVAIN LABS® Water Bath Tissue Flotation operates on a 220–230 Volt, 50 Hz power supply and is suitable for laboratories, hospitals, pathology departments, histology laboratories, research facilities, and educational institutions requiring dependable tissue flotation equipment.

Key Features

- Double-walled construction for improved thermal stability
- Inner body made of aluminum
- Outer body made of mild steel sheet
- Durable epoxy powder-coated outer finish
- Thermostatic temperature control up to 80 °C
- Temperature accuracy of ±0.5 °C

- Designed for tissue flotation and histopathology applications
- Suitable for pathology and histology laboratories
- Power supply: 220–230 V, 50 Hz
- Reliable and consistent laboratory performance

Applications

The AVAIN LABS® Water Bath Tissue Flotation is suitable for tissue section flotation, histopathology, histology, pathology, biomedical laboratories, research laboratories, and routine tissue-processing applications.

Why Choose AVAIN LABS®?

AVAIN LABS® provides laboratory equipment designed with a focus on reliable performance, precise temperature control, durable construction, and practical laboratory use. The Water Bath Tissue Flotation is an ideal choice for laboratories looking for dependable and easy-to-use tissue flotation equipment.
